Sustainability Commitment Statement

At Vogue Advertising and Event Management, we recognize the critical importance of sustainability in our operations and procurement practices. We are committed to upholding our activities with the principles outlined in the UN Sustainable Procurement Framework, focusing on environmental, social, and economic sustainability.

Environmental Commitment:

We are dedicated to the prevention of pollution, the utilization of sustainable resources, and active participation in climate change mitigation efforts. We pledge to protect the environment and biodiversity and promote eco-friendly practices in all facets of our operations.

Social Responsibility:

Vogue is committed to upholding human rights, promoting fair labor practices, fostering gender equality, and encouraging sustainable consumption. We prioritize social health and well-being, striving to create a positive impact on the communities in which we operate.

Economic Sustainability:

In our pursuit of economic sustainability, we embrace whole life cycle costing principles. We actively engage with local communities and support small or medium enterprises in our supply chain, recognizing the importance of their contribution to overall sustainability.

We understand that sustainability is an ongoing journey, and we are dedicated to continuous improvement. Our commitment extends beyond words, as we actively seek measurable results that demonstrate progress towards our sustainability goals.

By adhering to these principles, we aim not only to meet regulatory requirements but to exceed them and contribute positively to the global effort for a more sustainable and equitable future.

This commitment reflects our values and underscores our responsibility to current and future generations.

Bijaya Ghimire

Managing Director
